ICD-10 EDI Testing with Emdeon – Provider Instructions

Objective: Submitters/providers to test directly with Emdeon to verify and validate their ability to generate valid ICD-10 coded claims and receive standard clearinghouse reporting feedback based on their existing reporting preference.

General Information

Features & Benefits	Not Supported
Supports ICD-10 X12N 837 v5010 Professional and Institutional test files with up to 10,000 claims per file.	Non-standard legacy claim formats and X12 version 4010 do not support ICD-10 data content and cannot be submitted for ICD-10 testing purposes.
Includes standard ICD-10 specific edits, such as: • Diagnosis Type Code qualified specified must be appropriate for the ICD-10 code value submitted. • ICD code submitted must be a valid code value • ICD-9 and ICD-10 codes cannot exist within the same claim. • Date of Service/Discharge edits have been relaxed.	In general, the Emdeon Exchange does not validate the appropriateness between the ICD diagnosis codes and procedure codes submitted in a given claim.
Easy access – no cost ICD-10 testing pathway	Test claims containing ICD-9 data content will not be made available to payers for testing purposes.
No setup is required for submitting test claims. Utilize your existing clearinghouse connectivity.	Providers should work directly with participating payers to review payer claim and payment processing feedback.
Includes standard Emdeon clearinghouse feedback.	Real-time transactions (270,276 and 278) are not supported for ICD-10 testing purposes via this process.
24/7 availability, with active support Monday through Friday, 8:00-4:00, Mountain Standard Time.	
Emdeon Payer customer participation is noted on the Emdeon Payer List.	

Submission Process

Paper Claims: Paper Claims for ICD-10 Testing should be sent to:
Attention: Tabitha Mayfield, Valence Health
540 W. Madison, Suite 1500
Chicago, IL 60661

Electronic Claims:

Note: If you do not have a direct connect with Emdeon, you will to check with your software/billing/clearinghouse vendor to ensure they are setup as a testing partner with Emdeon before you proceed with testing submission process below.

1. ICD10 test claims should be submitted to Emdeon in a test mode.
2. Please refer to the attached Quick Start Guide from Emdeon for detailed instructions on how to submit test claims.
3. Please use Payer ID ICD10.
4. Providers will receive generic Emdeon Exchange validation and reporting feedback; as a provider, this allows you to test your ability to generate valid ICD-10 coded test claims without directing claims to a given payer.

Please review Emdeon's updated ICD-10 website for additional testing support or submit your questions to Emdeon online. Thank you.
