When applicable, the deductible must be met before benefit payments are made (excluding routine services, hearing aids for children under age 21 and drugs and items covered under the drug plan).
2. After a member reaches the applicable out-of-pocket limit, the Plan pays 100 percent of his/her covered charges for the rest of the calendar year.
3. Initial treatment of a medical emergency is paid at the Preferred provider benefit level. Follow-up treatment from a non-preferred provider and treatment that is not for an emergency is paid at the Non-Preferred Provider level. Nonemergency air ambulance services are covered only when it is medically necessary to transfer the patient from one facility to another.
4. Certain services are not covered if preauthorization is not obtained from NMHC. See the *What Is Covered by the Plan?* section for services that require preauthorization. Some services may require a written request for preauthorization in order to be covered.
5. Preauthorization is required for inpatient admissions. Some services, such as transplants and physical rehabilitation require additional authorization. If you do not receive authorization for these individually identified procedures, benefits for any related admissions will be denied.

7. Services administered by a licensed medical doctor (MD), doctor of osteopathy (DO), physical therapist (RPT or LPT), doctor of oriental medicine (DOM), doctor of chiropractic (DC), and licensed massage therapist (LMT) are covered.
